As indicated by the report, there has been an expansion in the sum opposite bank cheats during the year 2017-18. Open area banks represented 85% of almost 6,500 cheats, adding up to more than Rs 30,000 Crores. Indian banks detailed an all-out loss of about Rs 70,000 Crores to cheats during the last three fiscals.

There are various kinds of bank fakes that occur and bank fakes can be named insider cheats and outcast fakes. Right now, will examine the different sorts of cheats that occur at banks.

### Types of Frauds

#### 1. Fraudulent loans

Fraudsters take out money from banks in the name of loans. Banks always come forward granting loans, if they believe that the money will be repaid with interest. In case of a fraudulent loan, a borrower is a business entity controlled by a dishonest bank officer or an accomplice. After availing a loan, the borrower declares bankruptcy and the loan will not be repaid. In some cases, the borrower may even be a non-existent entity and the loan will be availed just to steal a large amount of money from the banks.

#### 2. Data fraud

If there should arise an occurrence of wholesale fraud, fraudsters take your character and use it to apply for an individual advance, bike advance or a Mastercard with a bank. After fraudsters have benefited a credit in your name, the duty of reimbursing falls on you. You will be sent a notification by the bank and on the off chance that you neglect to reimburse the advance, your financial assessment will descend and you will be denoted a credit defaulter.

Checking credit report often encourages you know whether you are a casualty of data fraud.

#### 3. Card Skimming

Card skimming is a kind of bank extortion, where a little electronic gadget called a skimmer is utilized by fraudsters to take card data. The skimmer is generally introduced in the POS machine or ATM. At the point when a card gets go through a skimmer, the gadget catches and stores key data from the attractive portion of your credit/charge card. This data is duplicated to the attractive stripe of a clear card and utilized by fraudsters to take cash from your financial balance.

Numerous individuals in Kolkata as of late lost lakhs of rupees to card skimming, in only 7 days. In this way, you must be cautious when you embed your card in an ATM and it's prudent to supplant your attractive plastic card with a chip-based card.

## 4. Phishing

You may have gotten an email expressing you are qualified for an intrigue free advance, you can profit an advance without checking your FICO rating, etc. Be that as it may, every one of these messages are not certified. These messages are called phishing messages. The aim of sending these messages is to take bank subtleties. Numerous individuals accept these messages to be certified and give their bank subtleties however at long last, they wind up losing cash.

## 5. Vishing

Vishing is additionally called voice phishing. Right now, present saying they are from a rumored Organization and approach you for individual financial subtleties. In the wake of gathering your own financial data, they use it to take cash from your ledger. Fraudsters call professing to be bank officials and state that your credit or charge card record will lapse and it must be restored at the earliest opportunity, to keep it from getting blocked. They likewise guarantee that they will help in restoring the record and you will be approached to give your own data like CVV number and OTP. In the event that you give a CVV number and OTP, the cash will be falsely pulled back from your ledger. Online Fraudsters will persuade you, talking simply like proficient bank staff. Continuously recollect, banks never request that you give individual data via telephone.
